DETAILED ACTION

Claim Rejections - 35 USC § 102

1. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(a) the invention was known or used by others in this country, or patented or described in a printed publication in this or a foreign country, before the invention thereof by the applicant for a patent.

2. Claims 9 and 12-13 are rejected under 35 U.S.C. 102(a) as being anticipated by Lee (2002/0149092, newly cited.)

In regard to claim 9, in fig. 5, Lee discloses a chip package structure, comprising:

- a substrate 30;
- a chip 40, disposed on the substrate and electrically connected to the substrate;
- a stiffener, or frame, 6 disposed above and unattached to the substrate, wherein the stiffener includes an outer surface and an opposite inner surface and the inner surface of the stiffener faces the substrate, and wherein the stiffener has at least an opening and the chip is completely exposed by the opening; and
- a molding compound 46 covering the chip, the substrate, the outer surface and the inner surface of the stiffener.

In regard to claim 12, wherein the chip package structure further includes a plurality of wires 44 and the chip disposed on the substrate is electrically connected to the substrate through the wires.

In regard to claim 13, Lee further discloses that wherein a material of the

Art Unit: 2814

stiffener is copper (Cu). See also paragraph [0026].

Claim Rejections - 35 USC § 103

3. The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

4. Claims 14-15 and 18-19 are rejected under 35 U.S.C. 103(a) as being unpatentable over Lee and further in view of Pierson (US 6569710, previously cited.)

In regard to claim 14, as mentioned in claim 1 above, Lee discloses all of the claimed limitations, but does not expressly describe the exact thickness of the base substrate, or the circuit board as claimed in claim 14, 0.1-0.5 mm.

Pierson, in figs. 1-11, discloses an analogous package including a circuit base substrate 22. The substrate is designed to have a thickness of .5 mm in order to provide a thin package and increase the flexibility of the whole package. See also col. 5, lines 18-20.

Therefore, it would have been obvious to one of ordinary skill in the art at the time of the invention was made to use a thinner board as taught by Pierson in order to take the advantage as mentioned.

In regard to claim 15, Lee as mentioned further wherein the stiffener includes an outer surface and an opposite inner surface and the inner surface of the

stiffener faces the substrate and the molding compound covers the inner surface and the outer surface of the stiffener. See also fig. 5.

In regard to claims 18-19, please see the discussions above regarding to claims 12-13.

Response to Arguments

5. Applicant's arguments with respect to claims 9, 12-13, 14-15, and 18-19 have been considered but are moot in view of the new ground(s) of rejection.

Conclusion

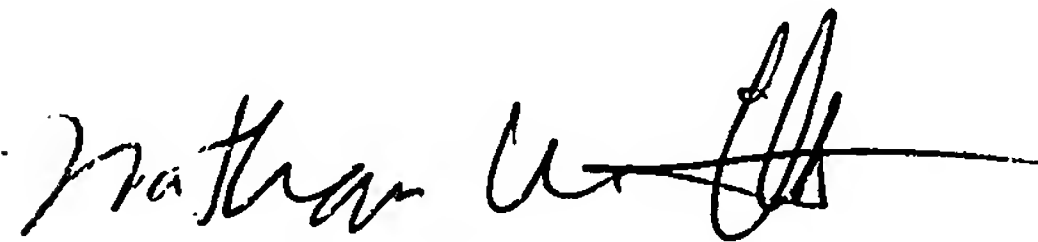

6. **THIS ACTION IS MADE FINAL.** Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.
